PROFILE

Jr. Software developer, passionate for backend and front end development to support your company as well as your clients. I have a background of 10+ years in store operations management, customer service, excellent problem solving skills, and great team building success.

SKILLS & ABILITIES

HTML | CSS | JavaScript | jQuery | AJAX | API | Twitter
Bootstrap | PHP | Python | SQL | Laravel | Fashion Design |
Team Building | Team Leadership

SOFTWARE PROJECTS

Simple Simon — JavaScript | HTML | CSS | Bootstrap | jQuery
Recreated a web version of the classic Simple Simon game using characters from a popular TV show. Optimized the app to render and function properly from mobile devices.

Weather Map — JavaScript | HTML | CSS | Bootstrap | jQuery | AJAX | weather API
Built an interactive weather map using Google Maps API. Application produces a five-day forecast for the location of a dropped pin.

Magic 8 Ball — JavaScript | HTML | CSS | Bootstrap
Developed a fun side project based on the classic magic 8 ball. This program simulates answering a question by displaying a randomized answer when the 8 ball is clicked.

FoodNow — JavaScript | HTML | CSS | Bootstrap | PHP | AJAX | Laravel | Google API | Twilio API
Collaborated with a team to create a social application that helps users quickly find the ideal dinner location. Using Google Places API and Twilio API, users can retrieve location as well as maps, restaurants, reviews, ratings, images to invite friends to dinner.

CUSTOMER SERVICE

- Awarded for the highest scores in secret shops for the years of 2012–2015.
- Awarded the highest increase in average dollar transaction and unit per transaction for the regain in 2012.
- Increased sales and became positive for plan and comp for the years of 2010–2015.

TEAM BUILDING

- Boosted morale among team by creating fun and innovative games on the spot.
- Fostered loyalty and trust among time by using team building exercises.

LEADERSHIP

- Generated new sales tracking systems for Agaci and Hot Topic to establish sales and daily goals and communication throughout the team.
- Created several rewarding job fairs for Agaci and held group interviews on the spot. The team was recognized for the highest amount of people showing up, interviews, and hiring the correct people.
